

Meeting the Challenges of Safe Transportation in an Aging Society Symposium

September 14-15, 2016
The University of Michigan, Ann Arbor, MI

Student Poster Session Competition

All students and postdoctoral fellows are invited to participate in the poster session at the symposium. We welcome students from a broad array of disciplines including but not limited to engineering, public health, psychology and social sciences, medicine, public policy, economics, and urban planning.

Posters may focus on any topics relevant to safe transportation and aging. Topics of interest include but are not limited to:

- Autonomous and Connected Vehicles
- Infrastructure & Engineering Countermeasures
- Health Issues
- Training & Assessment
- Policy & Licensing
- Aging & Transportation Issues
- Training & Driver Assessment

To qualify for awards, student must be present at a designated time. Posters will be evaluated by a panel of distinguished judges. Awards will be announced at the conclusion of the event.

Abstracts Due: September 1, 2016
Returning Students Extension: September 8, 2016
Notification of Acceptance: September 8-10, 2016
